Dear ,

I trust this email finds you well. On behalf of FIPRA International, I would like to thank you for joining us for the panel discussion on PFAS.

We were proud to offer a panel where the four industry and NGO representatives were able to share their perspective on the forthcoming PFAS challenge. We hope it offered some interesting content.

Please find attached a compilation of the PPT slides presented. We are also preparing a summary note of the event which you will receive next week.

Thank you again for supporting the event.

Kind regards,
