Subject: RE: Administrator Pruitt's Attendance at the Power Symposium

Sydney -

Many thanks for trying to help us in this short time frame. We have had nine confirmed energy industry experts as speakers since November and by having Administrator Pruitt as the keynote speaker to discuss the CPP legalities would have been the “icing on the cake” for our investor-owned utility symposium platform.

However, we've been in contact with Amy and are looking into the possibility of having Administrator Pruitt or one of his regional directors as a featured speaker for our 2018 Power Symposium.

As soon as we have the confirmed date for the 2018 Power Symposium, we will be in touch to submit a special request.

Best to you!

-Gretchen

Good afternoon Gretchen,

Hope you had a great weekend! Unfortunately it is just not a good week for us. I have reached out to the other gentlemen that you suggested as well as a few others and it doesn't look like a possibility. I am so sorry we can't make it work.

Thank you!

Good afternoon Sydney,

We are very disappointed hearing that Administrator Pruitt and Chief of Staff Ryan Jackson are unable to participate in our conference on April 27th. Would you please be so kind to offer another candidate such as Byron Brown or possibly Don Benton to speak on behalf of the EPA. This is a very important event and we would really like your help.

Please call me at your earliest convenience to discuss alternatives. Also, Joe Umberto's number is 908-500-2133.

I look forward to hearing from you as soon as possible. Time is of the essence.

Kind regards and thank you,

Gretchen Cividini

Good afternoon Gretchen,

I am hopeful this email finds you well! Reaching out today regarding your request for Administrator Pruitt to speak at your conference on April 27th. Unfortunately he will be unavailable that day to speak in New Jersey, as will his Chief of Staff who I believe was also being considered as a possible speaker. I am so sorry we were unable to participate but we are thankful for your patience through the process. Wishing you all the best in your event!

Thank you,

Sydney Hupp
