

1 Do you want to read it and check?

2 A Yes.

3 Q So all of these words would have gone into
4 this little box up here on the back of the Kaylo box
5 where nothing else is written on it, and that is what
6 you all decided to do between '66 and '70; isn't that
7 true?

8 A Yes, sir.

9 Q And, sir, isn't it also true that this thing
10 that you put on this box until 1970 didn't say the
11 word hazard, didn't say the word caution, didn't say
12 the word danger, didn't say the word warning, didn't
13 say any of those things, did it?

14 A No, sir.

15 Q It didn't say asbestosis, and it didn't say
16 cancer and it didn't say mesothelioma?

17 A No, sir.

18 Q Isn't it true, sir, that you have testified
19 in the past that, you, as a research chemist of Owens-
20 Corning Fiberglas, worked with Kaylo, who also has a
21 postgraduate degree, that when you saw the label, the
