Monsanto Chemical

ST. LOUIS—In order to simplify its capital structure, Monsanto Chemical Co. is proceeding to liquidate several of its wholly owned subsidiaries. The Merrimac Chemical Co. of Everett, Mass., however, will continue to operate as heretofore. Among the more important subsidiaries being liquidated are the Rubber Service Laboratories of Akron, Ohio, the Virginia Fertilizer Co. of Norfolk, Va., and Wilckes Martin Wilckes of Camden, N. J. Henceforth, all operations of these companies will be carried under the name of Monsanto Chemical Co.
