SHERWIN-WILLIAMS

PAINTS VARNISHES LACQUERS ENAMELS

**"Cheap" paint
gets the gate!**

**"Cheap" paint
isn't cheap at all**

Don't think in terms of cost per gallon when you think of house paint!

To get actual paint costs, find out how far a given brand of paint will go—how long it will last—and whether or not it fades quickly.

Sherwin-Williams SWP House Paint—the finest money can buy—covers more surface than any "cheap" paint—therefore costs less to begin with.

SWP outlasts two to five coats of "cheap" paint—another huge economy.

And SWP remains bright and fadeless for the life of the paint job, while "cheap" paint fades and washes out from the day you put it on your house!

Which is really the cheapest paint? For the lowest cost paint job—buy

SWP
