Asbestos

Thomas F. Mancuso, M.D., M.P.H.
Chief, Division of Industrial Hygiene
Ohio Department of Health
306 Ohio Departments Building
Columbus 15, Ohio

Dear Tom:

Thank you for your letter of November 9, 1961
regarding pneumoconiosis and the asbestos questions.

I am afraid I have no idea of the kind of asbestos
used by the plant at one specific time and I suggest
that you write to them directly. You may or may not
get an answer from them. They do manufacture brake
linings and other spun asbestos products.

Congratulations on your appointment at the
University of Pittsburgh. I will probably see
you more often there since I have a certain amount
of connection with them, too.

Sincerely yours,

[Signature]
Jan Lieben, M.D., Director
Division of Occupational Health
