Dear [REDACTED]
Thank you for pointing us to Table 4 in the article of Glüge et al. This is a very useful input to our work on the categorization of functions in preparation of the economic impact assessment.

Kind regards,
[REDACTED]

Subject: RE: Preparation WP7 meeting on 27 October

Dear all,

Thanks again for the good discussion during the WP7 meeting yesterday!

As promised please find attached the presentation.

We will shortly get back to you regarding your comments submitted to the approach-to-SEA document.

The next meeting is scheduled on 17 November.

Kind regards,

[REDACTED]

Subject: Preparation WP7 meeting on 27 October

Importance: High

Dear colleagues,

As announced earlier please find attached our working document on the suggested approach to SEA in the U-PFAS restriction dossier.

The document has been prepared by the RIVM colleagues involved in SEA and includes considerations on the PFAS concern, how this translates into a reasoning on risk/impact potential, and how we would suggest to approach

impact and proportionality assessment in the dossier. As you will see, some parts are still work-in-progress, but we think it is important to start-up the discussion now.

We had an internal discussion/commenting round and I have left some comments in the documents as they may also be important for our discussion.

Your comments and suggestions are very welcome. We plan to discuss the suggested approach in the next WP7 meeting on 27 October.

We would very much appreciate if you could send us your discussion points by 25 October at the latest so that we can prepare the meeting.

Finally, I have also attached the presentation of the previous meeting (on the essential use concept).

Best regards,
