

ADVANCE UNEDITED DRAFT**DRAFT RISK PROFILE OUTLINE****EXECUTIVE SUMMARY****1 INTRODUCTION****1.1 Chemical Identity of the proposed substance**

- Mention who has made the proposal and when
- Spell out the specific chemical identity and particular considerations related to that

1.2 Conclusion of the POP Review Committee of Annex D information

- “POP RC has evaluated Annex D (add reference to the meeting and the decision) information and has concluded that ...”

1.3 Data sources

- short overview of the data sources provided by the proposing Party and/or used by the POP RC in Annex D screening
- short overview of data submitted by Parties and observers (NB: a more elaborated summary of the submissions may be provided as a separate POP RC INF document)
- information on availability of national and international assessment reports;

[1.4 Summary of available risk information

- brief summary of the submitted evaluations and other information referred to in Annex E, point f
- Alternatively, can be summarised in a separate POP RC INF document]

1.5 Status of the chemical under international conventions**2 SUMMARY INFORMATION RELEVANT FOR THE RISK PROFILE****2.1 Sources**

- production, trade, stockpiles
- uses
- releases to the environment

2.2 Environmental fate

- Further elaboration of information referred to in Annex D, paragraphs (b) – (d); based on all relevant available information
- Monitoring data available integrated under the subheading or alternatively dealt with under separate heading “Monitoring data”
- Could be split in:

2.2.1 Persistence**2.2.2 Bioaccumulation****2.2.3 Long range environmental transport**

2.3 Exposure

- Summary of relevant information concerning exposure in local areas (both near the source and in remote areas)
- Summary of relevant information concerning exposure as a result of LRET
- Information on bioavailability

2.4 Hazard assessment for endpoints of concern

- Further elaboration of information referred to in Annex D, paragraph (e); based on all relevant available information
- Monitoring data on effects included

3 SYNTHESIS OF THE INFORMATION

- synthesis of the information under chapter 2 that
- focus on information that is leading to the conclusive statement under chapter 4

4 CONCLUDING STATEMENT

- Is the chemical likely, as a result of LRET, to lead to significant adverse human health and/or environmental effects, such that global action is warranted

Note: No Annexes; all other data provided as POP RC INF documents

Target size not longer than 20 pages
