DAYTON, OHIO

On September 6, 1973, I attempted to call Dr. Marvin W. Sage of the subject company to discuss the subject of dust free fiber handling and his request that we add 10 to 15% of "Mineral Spirits 66" to fiber for D.A.P. and package in polyethylene bags.

Dr. Sage is no longer with D.A.P. and it appears that his idea to use mineral spirits has left with him.

You have a copy of R. D. Mallory's letter of August 29, 1973, and if the subject comes up in future calls at D.A.P. I suggest you advise them we are not interested in adding mineral spirits but would be glad to supply in poly bags.
