

December 7, 1955

Dr. A. J. Lehman
Chief, Division of Pharmacology
Food & Drug Administration
Department of Health, Education & Welfare
Washington 25, D. C.

Dear Dr. Lehman:

We have developed two new resins for food packaging applications. These are designated as Geon 400X70 and 400X85. Each is a mixture in approximately a 4 to 1 ratio of polyvinyl chloride and polyvinyl acetate. We request Food & Drug Administration acceptance for food packaging applications of each of these resins.

Sincerely yours,

W. E. McCormick, Director
Department of Industrial
Hygiene and Toxicology
