

INTER-OFFICE MEMO **TENNECO CHEMICALS, INC.**

TO	Distribution	AT		DATE	October 1, 1969
FROM	H. B. Carr	AT	Burlington	COPY TO	J. C. Fisher
SUBJECT	FDA Status - Tenneco Resins				E. J. Hourihan
	(Revision on subject memo				C. W. Johnston
	dated September 25, 1969)				M. W. Williams
					File ✓

The paragraph shown below was inadvertently left off as an introduction to Plastisol. Please attach this to the referenced ~~memo~~.

Plastisol

Pages 3 and 4 of the petition filed with the FDA by R. H. Marks and G. Nowlin on 9/6/65 are attached. We are currently using tributyl phosphate as an anti-foaming agent in our Plastisol process. This additive was not included in the original petition and we, therefore, are not covered for its use except under paragraph 121.2520.
