Subject: Cement Association MAY Meeting/Keynote Request

Hi Michelle,

I am sure you are super busy, but I wanted to reach out to you because the Portland Cement Association is hosting our annual Washington, D.C. Fly-In on **May 9th and 10th**. PCA represents 92 percent of U.S. cement production capacity and have facilities in all 50 states. Cement and concrete product manufacturing directly or indirectly employs approximately 500,000 people in our country, and our collective industries contribute approximately \$100 billion to our economy. The D.C. Fly-In is attended by CEO's and senior company executives. This year we will also invited other concrete trade associations to participate as well.

PCA would be honored to have Administrator Pruitt as our keynote speaker on **Tuesday, May 9th** anytime from **6pm** on at our opening dinner at the 101 Constitution Roof Terrace. Administrator Pruitt is welcome to join us for dinner, or just come to speak, whatever is best for your schedule. Attached is an invitation with additional details. Should this time not accommodate your schedule we also welcome the Administrator at our breakfast on **Wednesday, May 10th** at the Washington Marriott at Metro Center anytime from 7:00am to 10:00am. Additionally, Cement CEO's would be able to come for a meeting on Tuesday, May 9th at 4pm.

Happy to answer any additional questions or concerns via email or phone: 202-679-8223. If you could let us know no later than April 26th that would be very helpful. Thank you again and enjoy the spring weather!

All My Best,

Rachel Derby

Vice President of Government Affairs

April 3, 2017

The Honorable Scott Pruitt
Environmental Protection Agency
1200 Pennsylvania Avenue, N.W.
Washington, DC 20460

Dear Administrator Pruitt:

On behalf of the Portland Cement Association (PCA), I am pleased to invite you to be the keynote speaker at our Cement and Concrete Washington, D.C. Fly-In. The event will take place on May 9th and 10th, and will be held in conjunction with PCA's Board Meetings.

Founded in 1916, PCA is the widely -recognized authority on the technology, economics, and applications of cement and concrete. The association advocates for sustainability, economic growth, sound infrastructure investment, and overall innovation and excellence in construction. The Portland Cement Association represents 92 percent of U.S. cement production capacity that has facilities in all 50 states. Cement and concrete product manufacturing indirectly employs approximately 500,000 people in our country, and our collective industries contribute approximately \$100 billion to our economy.

The Cement and Concrete Fly-In will be attended by PCA's Board of Directors as well as executives representing producers and users of concrete. Additional CEO's from other concrete related trade associations will also be attending this year's event. As the second most consumed product on Earth, behind water, it is impossible to contemplate revitalizing our nation's infrastructure and environment without putting concrete at the forefront of the discussion. Fly-In attendees would appreciate hearing about your current and long term goals for the Environmental Protection Agency,

The event's opening dinner will take place on Tuesday, May 9th at the 101 Constitution Roof Terrace from 6pm-9pm. We would be delighted if you could speak at this event, at a time of your convenience. Additionally, the group would also like to welcome you at breakfast on Wednesday, May 10th from 7am to 10am at the Washington Marriott at Metro Center.

Administrator Pruitt, it is our sincere hope that you will be able to join us as our members come to Washington to work to advance infrastructure reform. Your participation will make this a truly memorable event for our Board of Directors and member company representatives. Rachel Derby, PCA's Vice President of Government Affairs, will contact your office shortly to provide any additional information that might be helpful. She can also be reached directly at 202-679-8223 or rderby@cement.org.

Sincerely,

A. Todd Johnston
Executive Vice President of
Government Affairs
