Q Now, as a pharmacologist and a toxicologist, have you examined the dose-response relationships for various types of chemicals?

A Yes, sir, I have.

Q Okay. And does the dose-response relationship apply to asbestos and asbestos-related disease?

A Yes, sir, it does.

MR. WILLIAMS: Your Honor, if I could get Dr. Weir some water. We seem to have a lack of cups though.

THE COURT: We are getting some cups. We have a supply hidden just like we hide the candy.

(Whereupon, discussion off the record.)

BY MR. WILLIAMS:

Q While we are getting the water, I will go ahead and move on to a new area.

I think when I first asked you what you did, you said you were a toxicologist, pharmacologist, and industrial hygienist.

Do toxicology and pharmacology interact with
