Mr. Kingman C. Shelburne
933 South 39th Street
Birmingham, Alabama

Dear Mr. Shelburne:

In view of the fact that you have in your hands at present a book in which a series of articles published from this laboratory have been compiled and bound, and in as much as there are very few remaining copies of this book, I would suggest, if you are agreeable, that you return it to me for safe keeping until it shall be required in the further prosecution of the case in question. The book belongs to one of the Vice Presidents in the New York office of Ethyl Gasoline Corporation, but if you will return it to me, I will take care of it for him, and I will see that you obtain it again in due time.

May I also suggest even this far in advance, that as soon as you know when the case is to be set, that you let me know promptly. It will be a great convenience to know some time in advance since it is often difficult for me to arrange some of my engagements in other parts of the country.

With kindest personal
regards, I am

Very truly yours,

RAK:is

Robert A. Kehoe, M.D.
