CHRYSLER BUILDING
405 LEXINGTON AVENUE

NEW YORK

INTER-OFFICE
CORRESPONDENCE

February 15, 1937

Dr. Robert A. Kehoe

My dear Bob:

I enclose copy of a letter in answer to one of mine in which I refused to ship ten pounds of tetraethyl lead for experimental work in an insecticide.

I will appreciate it if you will advise me whether or not we ought to go into this matter. The Company in question has asked for quotations in thousand pound lots.

Very truly yours,

Graham Edgar.
