Subj: Registration of Newark and Santa Ana Plants under
Gregorio Act

cc: B. A. Blessington
L. W. Farmer/South Gate
~~U. M. Favorito~~
T. P. Feit/Santa Ana
R. M. Vining
B. R. Williams
J. W. Wolter
W. R. Wright

To be sure that the ball does not drop between the
infielders, I would like to designate you as the person responsible
to see that our Newark and Santa Ana expanding plants are registered
with CAL/OSHA as required by the Gregorio Act.

The basis for our registration would be that we are
handling a material (Libby ore) which is an asbestos-labeled product.

I want to be certain that we properly indicate the basis
on which we register such that our finished products (which are not
labeled) are not brought into the basis for our registration.

Such action will legitimately avoid the need to register
with CAL/OSHA for most, if not all, of our customers.
