REFRIGERATOR/FREEZE FINISHES - FDA APPROVAL

Ref: W. W. Miller to S. L. Ludmerer, April 13, 1971
C. W. Pulfrey to D. H. Baist, et. al., April 23, 1971

My letter to S. L. Ludmerer referred to home-use refrigerators and freezers only. Interior finishes for commercial refrigerators and freezers used in stores, trucks, warehouses, etc. would be subject to FDA approval.

I'm sorry this was not explicitly stated in my letter of April 13, 1971. Would you please convey this additional information to the addressees of your April 23, 1971, letter.

If the matter still is not clear, please contact me.
