

USING THE LABX

LABX is a communication, using the plant mail system, to get lab results from the Main Lab.

To use LABX you must use the following procedure.

1. Select IRMA BOARD on the menu.
2. Type in CICS, then ENTER. At the CICS screen, press F2.
3. At the sign on screen, type in CSSN, then ENTER.
4. You will then get a screen for your Name and password. Type in your Code word/name, then press the tab and type in your password (this will not appear on the screen). Then press the ENTER key. You will get a message stating SIGN ON COMPLETE
5. Type in MENU, and press ENTER. Then press F2. This will give you the Mail System Menu.
6. Select the number for LABX and press ENTER.
7. This will give you the Sample screen. Type in T2 for the unit, hit TAB twice and enter the date, using yesterdays date. Hit TAB again and enter the sample requested.
8. After you have intered all the information, then you will need to press F6, TAB & F6, then the ENTER key. This will initiate the sample call up. The results will be on screen in about 30 seconds.
9. When finished you will need to get out of the IRMA BOARD. To do this, first press F2 to get back to the menu, then press CONTROL K. This will give you the screen FIN:MANTIS TASK SUCCESSFULLY TERMINATED. Type in CSSF, and you will get SIGN OFF COMPLETE. Then press both SHIFT keys at the same time to exit IRMA.
