Gentlemen:

Attention: Dr. Manfred Bowditch
Field Director

Regarding your letter of June 28, concerning a proposed visit of your Mr. E. C. J. Urban to our mill, we feel that this should not be considered at this time. Basically, this vacation season results in the absence of many of our key men who should be here on such a visit. Furthermore, the recent slump in business has resulted in very little fabrication of Beryllium Copper at this time.

We would suggest discussing this proposal again when Mr. J. V. Hackett and the writer attend the Saranac Symposium.

Very truly yours,
THE RIVERSIDE METAL COMPANY
