MARCH PRODUCTION RECORDS

W. B. Papageorge
Anniston

Your outstanding month in the total plant production record contributed significantly to the total Organic Division record in March. Your individual records in Santowax C, Polyphenyls, Santowax OM, Santowax R, HB-40, Liquid Aroclor, Solid Aroclor, Muriatic Acid and p-Nitrophenol were also outstanding in these specific critical areas.

Please extend my congratulations to all who helped to achieve these records.

R. E. Soden
