Subject: Thank you note Sherwin Williams

Dear [REDACTED]

We wanted to thank you for the fruitful and timely conversation we had last week Tuesday. We highly appreciated that you took the time to meet us despite your busy schedule.

We very much welcomed the fruitful and insightful exchange regarding the upcoming REACH revision. [REDACTED]

We also welcomed the Commission's considerations to provide predictability to industry with regards to the extension of the GRA. We fully support the Commission's intention to phase out the most harmful substances, while also promoting a risk- and science-based approach that allows industry to continue to innovate.

Please find attached our position paper on the role of paints and coatings in a circular and resource efficient Europe, indicating the company's position on the guiding principles of the REACH and CLP revisions. We remain entirely at your disposal for providing you with additional information where needed.

My team and I look forward to pursuing the constructive collaboration with you.

Have a great day.

[REDACTED]

SHERWIN-WILLIAMS
