

YOUR HOUSE NEED PAINT?... THEN REMEMBER—

You have TWO ENDS of a paint brush to consider

WHEN you paint your house, give *both* ends of the paint brush serious consideration. For the handle end it pays to select a skilled painter—a master of his craft. It pays also to have pure lead paint on the other end of the brush.

House-owners for generations have found that this combination provides long-lasting, beautiful paint work . . . at economical cost.

Pure lead paint, made with Dutch Boy white-lead, is the choice of the modern painter craftsmen. It enables them to do jobs that reflect credit on their skill and reputation, that please the owner and save his money.

*Dutch Boy white-lead is sold
by paint dealers everywhere*
