DOCUMENT DESCRIPTION: Letter to Dr. Gardner Requesting a Copy of His Report

September 20th 1948

Gardiner Lab. Exhibit

V-B

Dr. L.H. Gardner, Director
The Gardiner Laboratory
Saranac Lake, N.Y.

Dear Dr. Gardner:

Your letter of August 30th came while I was away and I have been busy most of the time for the past several weeks.

You were most kind to make so much of your time and so much of your staff's time available to our doctors when they made their trip to Saranac. I am sure it will be most helpful to them.

New X-ray equipment for our plant at Sherville is under consideration and I believe there will be no difficulty in getting it. Dr. Fegley made recommendations in line with discussions with you and he feels sure that our proposed new equipment when installed will really give him everything he could wish for.

We are interested in your comment that you are going over your experiments and will send us an interim report in the near future. Such a report would be most helpful and we are glad to know that you are going to find it possible to summarize some of your findings and conclusions.

Sincerely yours,

L.F. Woodard
