Dear Dr. Cooper:

This letter will acknowledge receipt and acceptance of the proposal outlined in your letter of May 20, 1970, covering potential asbestos health hazard studies.

As discussed by telephone on May 22, 1970, the potential hazard to workers doing "clean up" will include sampling of both "wet" and "dry" clean up procedures.

Thank you sincerely for the fine cooperation that you and your staff have given us. It has been very much appreciated.

Please let us know if we can be of any assistance in getting the project completed.

Very truly yours,

ZONOLITE - CONSTRUCTION PRODUCTS DIV.
