Dr. G.H.
Saranac Asbestos Study

NOTED
V. B.

For many months it has been hoped by the companies underwriting the Saranac asbestos study that the results would be published in the Journal of Industrial Hygiene. It is recalled that Saranac promised to have this in the hands of the publisher long ago and that the various companies have been asking you at rather frequent intervals why it hasn't yet appeared and when it will appear.

This has been followed up with Saranac through every medium of communication and on many occasions. Dr. Lanza told me yesterday he understands that the article is practically finished, but Dr. Vorwald is out of the country until the first of next month, and so the article may not be forthcoming until after his return.

This subject will be followed up as in the past and this memo is just to give you the story as of now.

J. P. Woodard *(d)*
