Thanks Carrie. We will take a hard look at the position as we address the Phase II regs.

I want to thank you for taking the time to meet with us earlier this summer. Following our meeting with you, we have updated our Position Paper related to Step Two of the WOTUS rulemaking process. It offers principles and suggests key definitions for consideration by EPA and the U.S. Army Corps of Engineers as the agencies develop a proposed new rule. The paper is available here:

Please feel free to contact me if you have any questions, and we look forward to continuing to work with EPA on these issues.

Thanks  
Carrie
