Dear Mr. Nelson:

I happened to pick up a copy of American Brakeblok Service Tip No. 34 at a local NAPA parts store today. I consider the bulletin very interesting. I would like to know if it might be possible to obtain copies of the previous bulletins? I shall attempt to keep up to date with the bulletins which will be issued in the future by keeping in touch with the local distributor.

I would also like to know if you might have any other materials which might be of interest to myself and my students in our studies of brakes. It frequently is quite difficult to keep up to date with all the changes in products and procedures in the automotive repair fields without maintaining contact with the various organizations and companies directly involved. Any materials which you might be able to provide us will be greatly appreciated.

Sincerely yours,

Charles E. Christensen
