Washington, D.C. - Joint statement of Transportation and Infrastructure Committee Chairman Sam Graves (R-MO), Transportation and Infrastructure Committee Ranking Member Rick Larsen (D-WA), Aviation Subcommittee Chairman Troy E. Nehls (R-TX), and Aviation Subcommittee Ranking

Member Steve Cohen (D-TN) following today's announcement by U.S. Secretary of Transportation Sean P. Duffy regarding the Administration's air traffic control infrastructure plan:

"Modernizing the nation's air traffic control system is long overdue and a necessity for the future of American aviation and the safety of the system. Americans need and deserve a state-of-the-art air traffic control system and we look forward to working with our congressional colleagues and Secretary Duffy to achieve that goal. We cannot afford to delay any longer."
