CONFIRMATION OF TELEPHONE CONVERSATION

<u>Monsanto</u>	<u>Rechtel</u>	Date:	November 14, 1961
S. A. Bjorkman	J. W. Nelson	Place:	St. Louis - San Francisco
		Recorded by:	J. W. Nelson
		Subject:	Specification 1 N 3
			<u>1-CN-130</u>

Mr. Bjorkman called to confirm changes to Specification 1 N 3 which we had discussed in San Francisco last week. Monsanto prefers to use anti-abrasive material between layers of U-200.

We are to revise the specification and typical drawings. To expedite the approval of this specification, we are to send a rough draft of revised specification as soon as it can be typed.
