Dear Mr. Scott Pruitt,

I am studying mistakes in the sciences of climate change, economy, foreign affairs... from August 2004. Analyzing these mistakes I found solutions how to create millions of high paying jobs in all North America countries and fight changes in climate as in global warming, as in global condition with huge profit. I hope you will read my proposals - short - 7 pages, and with more explanation - 17 pages and use them right now.
I am ready to answer on any questions.

The best regards,

[Ex. 6]
