SHERWIN-WILLIAMS PAINTS & VARNISHES

Painting today saves rebuilding tomorrow. You can buy a lot of paint for the cost of a new barn. Isn't it good judgment to keep the old barn from ruin by investing in a little paint occasionally?

Sherwin-Williams Creosote Paint

will preserve every rough-lumber building around your farm. It is well known that creosote, the especially noteworthy substance in this paint, will prevent decay. It sinks into the wood and lends wonderful added strength to the life of the wood. Use it on barns, corn cribs, fences, out-buildings and shingle roofs. It spreads well under the brush and wears long and hard. Its low cost will surprise you. This is only one of the great family of paints, stains and varnishes described in our booklet, "Paints and Varnishes for the Farm." You need this practical, really helpful book whether you want to repaint your barn or merely brighten up a chair or table. We send it free.
