Re: Our Project Number 060609
Fluor Contract Number 4350
Mobil Joliet Refining Corp.
Contract 4350-8-003-2

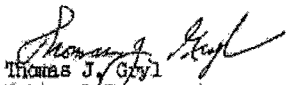

Attention: Mr. Irving M. Davis

Dear Sir:

Thank you for the preliminary copy of OSHA's emergency standard for exposure to asbestos dust. It is our intention to comply with this new standard. However, as Article 27 of the contract incorporates all of the provisions of the act in effect at the contract's inception, and, as Section 4 (b) (2) of the act was voided and superseded by the emergency standard, it must therefore follow that this will incur an additional cost, the sum or sums of which will be forwarded to you upon their computation. We are hereby seeking authorization from you to proceed with the work in accordance with this standard pending the submission of the said additional figure.

Very truly yours,

BRAND INSULATIONS, INC.

Thomas J. Gyl
National Safety Director

TJG/mk

cc: Mr. R.W. Guy
