With respect to BP Chemicals, Ltd., it is our understanding that it is no longer engaged in the manufacture of either PVC or VCM. We assume, therefore, that it will have no interest in joining the Institute. Concerning Rhone-Poulenc, we have no addresses for the individuals listed. With regard to Cires-Companhia Industrial de Resinas Sinteticas Sarl (Portugal) and Solvay & Cie S.A. (Belgium), unfortunately, we do not have any contact names to suggest.

Your note refers specifically to the European manufacturers; however, a list of Japanese manufacturers was also included. Do you wish us to review that as well, or do we understand that you have contacts that you are already aware of in Japan?

Please let me know if I can be of any further assistance.

Cordially yours,

Louis J. Weisz
