

SOUTHWESTERN REFINING COMPANY, INC.
INTERNAL CORRESPONDENCE

TO Tom Sands

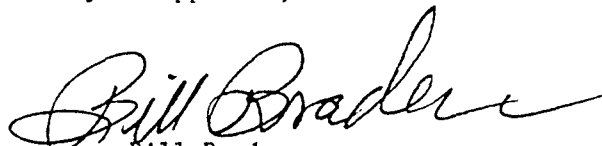

DATE September 30, 1987

FROM Bill Braden

SUBJECT Hazardous Waste Operations
Training

Attached for your review is the proposed training outline which will comply with OSHA 1910-120, subpart (O) requirement. The program exceeds the twenty four hour training requirement, however we felt the material was relevant and applicable.

We have reviewed this with Roger Clark and have his approval on course content. If the outline meets with your approval, we will proceed with training.
