Subject: Re: Media inquiry regarding Chemours in North Carolina

Hi Vaughn, attributable to an EPA spokesperson:

We don't have any updates at this time.

Hi, Enesta. I'm writing to check on the status of EPA's investigation into Chemours' Fayetteville Works plant in North Carolina. Specifically, I'm curious to know:

- 1) Has EPA determined whether Chemours has violated the terms of the 2009 consent order issued under the Toxic Substances Control Act (TSCA) for the production of GenX?
- 2) Has EPA updated the risk assessment for GenX?

My deadline is noon Friday.
