**Panorama of United States Gypsum's
New Brighton plant on Staten Island.**

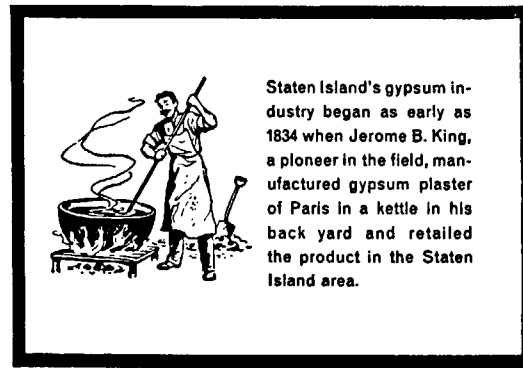

to build...to grow--this is
the challenge of tomorrow

It took a lot of building to build the world of today. *It will take a lot more to build the better world of tomorrow!*

This is the Challenge of Tomorrow. To join in meeting this challenge—with new and greater volumes of high-performance building materials—is the dedicated purpose of United States Gypsum on Staten Island.

We at the U.S.G. New Brighton plant are proud to be able to serve Staten Island and Greater New York with the materials of growth—SHEETROCK® Gypsum Wallboard, USG® Sheathing, STRUCTO-LITE® Basecoat Plaster, RED TOP® Plaster, ROCKLATH® Plaster Base, PYROBAR® Partition Tile, AUDICOTE® and SABINITE® Acoustical Plasters, and TEXOLITE® Paint Products.

United States Gypsum feels privileged to be a partner in the great Staten Island Community—building, growing, meeting the Challenge of Tomorrow.

UNITED STATES GYPSUM

the greatest name in building
