G. K. Foster
Montreal

Asbestos and Pulmonary Cancer

While Mr. Sabourin was in the office the morning of October 25, I arranged a meeting with him and Mr. Woodard to develop the mechanics for going ahead with the statistical study and the second part of the program recommended in your report, and approved at the Directors' Meeting of the Q.A.M.A. at Skytop, Penna., on October 23. This program is to be carried on under the direct responsibility of Saranac.

Mr. Woodard is to contact Dr. Lanza and then arrange a meeting at Saranac with Dr. Verwald, this meeting to be attended by Dr. Lanza, Mr. Sabourin, and Mr. Woodard.
