FROM Mr. J. P. Lamb AT Saddle Brook COPY TO
SUBJECT TCI MEDICAL PROGRAM

I realize the current work you are all doing with regard to developing a TCI Medical Program imposes certain extra burdens on you and I wished to emphasize to you the high level of interest we maintain in this project. TCI is not where it ought to be in this basic personnel, safety and operational program.

From the interest I detect via the meeting minutes and oral reports I receive, I am confident your collective efforts will lead us to the level of excellence we need to achieve and then maintain in this matter.

We appreciate your contribution.

J. P. Lamb
