Hi [REDACTED]

As discussed on 17/02/2022 we propose not to complete the Q4 2022 dioxins and furans tests from our effluent (sample at W1 for effluent release from the thermal treatment plant scrubber W4). The thermal oxidiser was offline during 2022. Note, we have this data for Q1 to Q3 2022 even though the thermal oxidiser was not operational.

Please can you confirm you agree with this approach.

We will update our Q4 2022 reporting and get these sent over to [REDACTED]

Kind regards,
[REDACTED]

AGC Chemicals Europe, Ltd.

Hello [REDACTED]

Thank you for providing the returns.

In future just for annual reports and quarterly returns and routine monitoring reports, can you send them to [REDACTED]

Everything else, keep sending to me.

Thanks

[REDACTED]

Subject: AGCCE Reporting 2022 data

Hi [REDACTED]

Please see attached reporting for AGC Chemicals Europe for 2022:

- AGCCE_Annual Report 2022
- AGCCE_2022 Q3 Q4_6 Monthly Report
- AGCCE_2022 Q4_A14 Emissions to Air
- AGCCE_2022 Q4_A14 Thermal Treatment Plant Summary

Comments:

- We are still waiting on a couple of sampled results for December – comments have been added to the reporting forms on this and we will provide an update.
- We will follow up with a breakdown of dioxins and furans once we have the December 2022 sample.
- Some monitoring for A4 and A5 has been missed Q3-Q4, addition monitoring is proposed in 2023 – comment added to reporting form.
- In Form Number: Energy 1 / 2017 it states * Conversion factor for delivered electricity to primary energy = 2.4, we have been reporting Primary energy Mwh (data taken from invoices and energy delivered to site) no conversion applied, it appears as though no conversion has been applied on previous reports – please could you let us know if this is correct? (If so we will remove this note from the reporting form).
- Octylphenolethoxylate (OP10) no longer used in our processes – potential to removed from monitoring requirement – we will send a separate communication on this.

Any questions/comments please let us know.

Kind regards,

[REDACTED]
