

C. Material and Equipment Handling (Continued)

PLAINTIFF'S EXHIBIT

ETCO-753

Asbestos insulation must be removed from equipment and piping, and must then be disposed of by the CONTRACTOR at an off-plant site in accordance with published OSHA and EPA regulations. All insulation is to be assumed to be asbestos.

F. General

ETH00003491

CONTRACTOR will implement all requirements of OSHA so as to be in compliance with all applicable regulations. In particular and not by way of limitation, Contractor's employees will be provided a complete physical examination to comply with all aspects of OSHA asbestos and inorganic lead standards. Also, Contractor's employees will be certified by a physician as being able to wear a respirator. The OWNER's Medical Department is not available for use to meet these requirements.
