Hi Cumbria & Lancs installations [REDACTED]

Noticed we were double counting out A4 mass HF emissions. Please see update to A4 emissions in the attached.

Kind regards,
[REDACTED]

Subject: AGCCE Reporting 2023 Q2

Hi Cumbria & Lancs installations [REDACTED]

Please see attached reporting for AGC Chemicals Europe for Q2 2023:

- AGCCE_2023 Q2_A14 Emissions to Air
- AGCCE_2023 Q2_A14 Thermal Treatment Plant Summary
- AGCCE_2023 Q1 Q2_6 Monthly Report

Thermal Oxidiser was offline for the majority of Q2 while undergoing repair as discussed with EA. There were approximately 5.5 days of re-commissioning where the Thermal Oxidiser was destroying liquid waste (high boilers from AGC plant) in April 04/04/23 - 10/04/23 before further failure halted re-commissioning,

however no gaseous waste streams (from Low Boiler Stack or Waste Acid Stack) were incinerated. Recommissioning of liquid waste commenced 06/07/2023 and gaseous waste streams (from Low Boiler Stack and Waste Acid Stack) will be commissioned in August 2023 with operation expected from September 2023.

I'm going to be on annual leave from 4-20th August, if you have any urgent questions on this data, please contact [REDACTED] otherwise I'll respond on my return.

Kind regards,
[REDACTED]
