REC'D SEP 11 1989

Dear Roy:

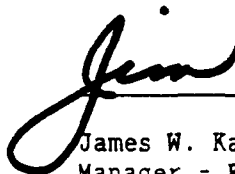

Thanks for being a speaker at this year's VCSA meeting in Boston. Attached is the final agenda which shows your spot on the program.

We will have typical audio-visual equipment, such as an overhead projector and a 35mm slide projector, available for your presentation. A VCR and TV monitor can be obtained upon request.

If you feel it is appropriate, feel free to bring copies of your talk, its outline or abstract. Seventy-five copies should be more than enough.

See you in Boston.

Sincerely,

James W. Kachtick, P.E.

Re: Vinyl Chloride Safety Association Presentation

Dear Joe:

I am looking forward to being with you at the Vinyl Chloride Safety Association Meeting in San Francisco on Thursday, September 22nd.

For my presentation, I would appreciate your making the necessary arrangements to have the following audio-visual equipment available for my use.

1. A 35mm slide projector with remote control.
2. A video cassette player (VHS - 1/2" tape) and video monitor, so that I can show the Vinyl Institute videotape on recycling of PVC.

If you have any questions on this, please call.

Sincerely yours,

RTG/pmb

Dear Gianni:

Attached is a tentative agenda for the 1988 Vinyl Chloride Safety Association in San Francisco. The meeting has been set for September 22 and 23 at the Hyatt on Union Square.

There are open times on the tentative agenda. I am hoping you will be able to fill these in with European speakers. We also need a speaker to present a European VCM/PVC regulatory update and participate in "true confessions".

Please contact me soon with any additional information you have on speakers.

Sincerely,

ATT: Mr. Roy Gottesman

Dear Mr. Gottesman:

It was a pleasure speaking with you on July 28 and we are pleased that you will be able to join us in Washington on October 9, 1986, to update our members concerning the Vinyl Institute activities.

This is to confirm that you will address the 1986 meeting of the Vinyl Chloride Safety Association on October 9, 1986, at 4:00 PM in the Hotel Washington, Pennsylvania Avenue at 15th Street, Washington, DC 20004, phone 202-638-5900.

Unfortunately, the bylaws of the association do not allow anyone but employees of vinyl chloride users or makers to be present in the actual meeting, in order to promote maximum openness in discussing incidents. Therefore, we will officially close our meeting at 4:00 PM for your discussion.

There is, however, an opportunity to discuss other matters with members, usually in the hospitality suites, traditionally provided by the initiator manufacturers. Dr. Archie Hamielec, of McMaster University in Hamilton, Ontario, will be our luncheon speaker on October 9 and will be talking about the use of computer models of the polymerization process for safety calculations, should you be interested in meeting him.

Sincerely,

Robert W. Boyer
