Thanks for following up Pat. I will read this tonight.

Sorry I was a bit distracted Friday—it was a long day. Lesson learned that I should just wait until Monday for some things and not keep pushing myself to keep going.

Hope you had a good weekend.

Regards,
Nancy

Nancy, thanks for taking a few minutes late on a Friday to talk about this and other things. As I said, Steve Knizner is excited about this proposal because it will solve a large problem for AD, and I have briefed Keigwin on it as well.

Just wanted you to be aware that it is a critical priority for P&G, RB and Clorox and potentially a huge resource savings for the Federal Government and the private sector without any compromise in public health protection.

Hang in there with the job---I'm hearing great things !

Pat
