

May have to sample other items in the future (Carbon monoxide, etc.) A shortage of Industrial Hygienists.

KEUPER - We are not "followers" in safety - We are "leaders". 2 years ahead in this phase right now.

Contact Div. Safety office first before making any special studies.

Regular schedule of 1 sample per month. Sample to be made one day during the first ^{week} of each month. Sample to be made during one (1), eight (8) hour period.
(USE THE FIRST FULL WEEK OF EACH MONTH).

* Confine samples right now, ONLY to Shop employees. Use employee who has greatest dust exposure. Select man in conjunction with Craft Supt. AND Shop Foreman.
