Subject: PERSONNEL AT DENNISON PLANT AND ASBESTOS FIBER PURCHASES
FROM CASSIAR

Attached is a list of Plant Managers at Dennison Plant from 1957 to 1976. Which list, was obtained from the litigation assistants' files.

In searching for Employee Relations Personnel, I contacted Hubert Lloyd who is presently the purchasing agent at Dennison. He has been at the Dennison Plant since 1958 and quite a responsible source of general information. Employee Relations Supervisors employed at Dennison are as follows:

1. Jim Bradley - 1957-1960, Presently at WHQ, X2226
2. Mike Burton - Succeeded Bradley and still Supervisor of Employee Relations at Dennison, Speed # 941

Lloyd's recall on Fiber Purchases from Cassiar is not very clear. Evidently all Purchase Orders were made by purchasing personnel at WHQ. Lloyd would have received a copy of invoices of fiber purchased. He referred me to Bill Rousch or Dwayne Coker in accounts payable for any possible records.

I also spoke to Hank Blechar about his records of fiber purchases. His records only go as far back as 1969 and they show the respective plants and tonnage that was to be shipped. His files have yet to be reviewed, but I intend to search this matter farther. Anita intends to obtain Blechar's files in the near future.
