Mr. W. M. Harrison, Jr.
Chief Environmental Engineer
Seaboard Coast Line Railroad Company
500 Water Street
Jacksonville, Florida 32202

Dear Mr. Harrison:

During recent conversation you indicated that it would be helpful to have on file information pertaining to asbestos emissions from COBRA Brake Shoes.

Enclosed are copies of correspondence between our company and the Association of American Railroads covering investigations that have been made in this area. This material may be used as you deem necessary.

Please let us know if any additional information should be required.

Very truly yours,

W. Frank Hylton
