James/Mike:

Please see attached table (and email trail below) that needs to be completed by about 11 am 5/11. It is an OMB exercise that is asking for more information in regards to the items that WO300 identified as potentially impacting energy development opportunities. There are several columns in there looking for cost/cost savings figures at 3%/7% and low/high ranges. Not sure those particularly apply to rescinding policy. Shelley can serve to provide some background and please contact 310/320 staff as needed for specific information on the policies identified.

Theresa: my apologies for assigning directly to James/Mike as this is a very short turnaround time and I wanted to them as much time as possible.

Steve/Mitch: Please ensure to provide data as needed to complete the analysis from James/Mike.

Thanks all!
Tim

Tim,

Please use attached version of spreadsheet.

Kristin and Karen - could you let us know if anyone from your team is working on filling in the information for the following:

IM 2016-140, Process for Assessing, Coordinating, and Implementing Greater sage-grouse Land Use Plan Adaptive Management Hard and Soft Triggers

BLM Land Use Planning Handbook, H-1601-1, Appendix C

Thanks, Shelley

Hi All

We have received a new, short turnaround request from ASLM - see below. I have added the items from our memo on SO 3349 Section C to the spreadsheet to get us started. Rich is clear below that if an entry does not lend itself to the information requested, we should simply put N/A. This is due back to ASLM tomorrow mid-day. Happy to discuss further after you have sometime to digest.

Shannon

Subject: Fwd: Procedural Guidance on Section 2 of Executive Order 13783, "Promoting Energy Independence and Economic Growth"

All,

Attached please find an Excel template that OMB sent to Exec. Sec. late yesterday seeking information in connection with Section 2(a) of Executive Order 13783, which requires the head of each Executive Department and Agency to review all of that agency's existing regulations, orders, guidance documents, policies, and any other similar agency actions that potentially burden the development or use of domestically produced energy resources, with

particular attention to oil, natural gas, coal, and nuclear energy resources.

This data that is request for the attached Excel spreadsheet is based on the information that your bureaus previously provided to Jim Cason. Unfortunately, it took quite a while for OMB to develop this template and before I sent it out I wanted to ensure that Julie had an opportunity to discuss it with the front office.

In populating the spreadsheet, if a particular item that you are including does not lend itself to the information requested in one (or more) of the data columns, simply put N/A.

We apologize for the short turn around on this assignment. Per the attached Memorandum from Acting OIRA Administrator Dominic Mancini, each Department is required to submit its plan for responding to the EO by this Friday, March 12. Accordingly, please have your bureaus send me their respective spreadsheets by Noon on Thursday, May 11.

Thank you in advance for your assistance and, again, our apologies for the quick turn around.

Rich
