44.B-2

SUBJECT: Replacement for Ceilinite (Asbestos) Material for Coil Pads in Amtrak Steam Generators.

Mr. R. W. Tanning, Jr.
Mr. O. G. Wood, Jr.
Mr. E. P. Bledsoe
Mr. C. O. Carlson
Mr. W. L. Winstead
Mr. W. C. Wright
Mr. C. F. Denison
Mr. A. R. Keith
Mr. G. R. Gibbs
Mr. F. W. Jerkins
Mr. M. C. Coley, Jr.
Mr. F. A. Gray

Mr. D. G. Goehring of Amtrak has advised in his memo of April 3, 1973, copy attached, that the ceilinite (asbestos) material used in the coil pads of Vapor steam generators will no longer be available. Future coil pads will be a lightweight fiberglass wool, and being more compressible than ceilinite, will be furnished with an extra layer in each set. The new coil pads will retain the same part numbers, as the old coil pads.
