Check the email address of the sender. It is possible that the name of the sender is known to you (e.g. a colleague), but the actual sender is someone else.

Dear all,

I hope this email finds you all well. Attached to this mail you can find some slides for the meeting tomorrow. The Agenda is included in the presentation. You can of course add any further agenda points-just email me. I have included some points ECHA has addressed in their document on their needs for the FFF restriction proposal. Though we need to discuss this also with our colleagues doing the human health assessment me and my colleagues find it useful to exchange views and how to align the work.

Best regards
