Ryan,

Is there someone that you can point me to at EPA to talk about this? I don't know if you've seen the report in the link below but a woman died from the bacteria in the water. This is the type of problems this technology can address directly. I hope all is well.

Subject: Letter on Emergency Exemption

Ryan,

Attached is a letter to Administrator Pruitt from one of my clients, Allied BioScience, requesting an Emergency Exemption to use their technology in hurricane cleanup. Their technology is currently in the registration process at EPA and cannot be commercially available until that process is concluded. A hard copy is in the mail, but I know that will take a while to come through. Let me know if you have any questions as I'm happy to talk more about this issue. I hope the dove hunt was a great time, as I'm sure it was. Talk to you soon.

Stratton

Hello Scott and Ryan,

I hope you are both doing well. Please see the attached invitation for Scott to speak at the Texas Public Policy Foundation's Energy Policy Summit in DC on Nov 30 at 10:45 or whatever works for you. Be sure and review the 2017 draft agenda. The 2016 is attached just so you can see how this event looked last year. If you have any questions, please call my cell.

Thanks!

Doug Deason

Subject: Invitation letter to Sec Pruitt for 2017 Crossroads Summit

Doug,

We would like to invite Sec Pruitt to deliver keynote remarks at our 2017 Crossroads Energy and Climate Policy Summit in Washington, DC on November 30th. We have created an invitation letter for him and would very much like your help to get this to him personally or to his office. Would you be available to help deliver the letter and the other two attachments in this email that are mentioned in the letter?

Thank you in advance for your help and please let us know if you have any questions.

Regards,

Clint Nesmith
